Important information if you create a new user under WIN 10

After creating a new user the following steps are necessary:

- Give full rights for the user to the folder C:\file-converter
- All backgrounds must be totally black
- All screensavers must be off
- All screens and hard drive may not go to stand by
- The exposure monitor has to show the images in the right size.

Disable the taskbar of the exposure monitor

- right click onto the taskbar
- choose → Taskbar settings
- look for → Multiple displays
- look for → Show taskbar on all displays → Off
